Student		Exam				2nd Exam				Final Grade	
		Q1	Q2	Q3	Grade	Q1	Q2	Q3	Grade		
Code	Name	8	7	5		6	7	7		s/ A.	c/ A.
80549061	John	70%	100%	100%	17.6					17.6	18
80549062	Mary	10%	50%	50%	6.8	100%	100%	50%	16.5	16.5	17
80549063	Claire					50%	50%	50%	10.0	10.0	10

Task 4: Create a web page containing a form where users should input the following data:

- Name (text)
- Age (radio buttons with option <18, 19-35, 36-48 and >49))
- Profession (text)
- Country (dropdown)
- Interests (list where user can select several - make up some choices)
- How did the user found out about the site (larger text field)

Don't forget that:

- The form should have a submit button.
- Each field should have a label.
- You should validate the page in the end.
- Try to submit the form and verify what happens in the URL bar using post and get as the form methods.

Task 5: Design a Website to Express Yourself

- Requirements: At least 3 pages, the home page has links to other pages, has a link to create a registration form according to the template (You can do more - Show your creativity) Homepage Overview: Avatar - about yourself
- Homepage: Insert a video about your hometown
- Experience page: talk about your learning process, abilities and interests

Task 6: Design a clothing sales website with the following interface (image optional)
